

# THE Gleichen Call

NINETEENTH YEAR, No. 14

GLEICHEN, ALBERTA, WEDNESDAY, JUNE 24, 1925

SUBSCRIPTION \$2.00 A YEAR

## All in Readiness for Gleichen's Greatest Stampede

### TWO WHOLE DAYS

Notable Stockmen Coming  
Also Cowboys and Cowgirls

Tues. and Wed. June 30--July 1

Stampede Grounds Never in Such Excellent Condition

The arrangements for Gleichen's great Stampede and Potlatch are now well underway. In fact everything that possibly could be done up to this time has been done by those in charge of the two great entertainments, and it is very evident that when the 30th day of June dawn, there will not be one single item overlooked for the comfort and entertainment of the thousands of people who will throng to Gleichen to spend two of the most exciting days ever witnessed in Alberta.

When Gleichen's Brass Band plays its first tune Tuesday morning there will start one of the most unique processions yet evolved by mankind, among which will be Gleichen's Famous "All Blacks" which claims the undisputed distinction of "The World's Longest Team From Gleichen."

Profiting by the experience of former years only those events that proved most exciting and entertaining for the spectators are to be retained with a high standard of excellency and many new features will be added that for variety and excitement have never been equalled anywhere.

There will be many notables present at this Stampede as Gleichen has a great reputation in putting on successful stampedes that has reached far and wide, our riders having captured world championships as far east as Madison Square, New York City. Motion picture men, too, are coming here to pick up pointers during the stampede.

Speaking of Gleichen's Stampede reputation it may truly be said that it is now widely known in every part of the British Empire, the members of the Imperial Press, who visited Gleichen on August 19th, 1920, still continue in their newspapers to every now and then refer to their pleasant recollection of the first and only stampede they ever witnessed.

Among the prominent stockmen to visit Gleichen will be:

Gavin Jack of Calgary,  
Tom Cadzow, of Edmonton and Calgary,  
Harvey Adams of Calgary,  
Jack Dillon, secretary of the Stockmen's Association  
Jack Butler, president of the Stockmen's Association.

Guy Weadick, manager of the Calgary Stampede

Jack Cahill, official barbecue manager,

Frank Messenger, Motion Picture manager, accompanied by Hoot Gibson, movie star; Glen Jones, calf roper; C. Sovern and W. Sovern, riders and ropers;

Pete LeGrandier, Champion bucking horse rider.

Sam Gardiner, with his string of bucking and relay horses.

Walter Deagon, will be our arena manager, who is the outstanding arena manager and cowman of Canada and will have full charge during both days.

O. Desjardine will be in charge of the chutes.

The Judges will be Tom Lawson and Jack Muller.

No expense is being spared to make this Stampede the best that has ever been attempted and there will be "something doing" every moment of the two days.

Thus it will be well to be on hand early and stay to the very last.

The Gleichen Oddfellows are preparing to feed the big crowds, and will have one tent at the Fair Grounds and two at the Community Hall, where they will serve regular meals and "hot dogs" throughout the two days.

Thus the hotels and restaurants will be so augmented that none need go hungry.

The repairs at the stampede grounds to the fences corrals and chutes are now about complete, and Stampede Manager Chris Bartch is determined to have the entire arena as level as a floor and everything in first-class shape when the stampede opens next Tuesday.

is uncanny and can only be experienced to be properly understood. The story briefly of the potlatch is something like this, although different of our red brothers tell it various ways and some make the story dramatic:

Many distant moons ago there lived a great chief who took his braves along way from home to make war on his enemies. Upon their victorious return the great chief desired to show his appreciation of the great fight his warriors had waged. Gathering all his tribe together and all his belongs he distributed his goods and horses among his braves until he had nothing left and stood naked in his breech-cloth. Of course, there is a beautiful Indian maid interwoven through the story, which makes it intensely interesting.

The Gleichen Potlatch will demonstrate this story that one and all will understand in full what the great chief's feelings of gratitude towards his warriors are they leave Gleichen. It is a wonderful spirit, will carry the individual away from the ordinary cares of this mundane sphere and make one feel greater, better and kinder towards mankind for all time to come.

There will be no objection to your laughing or when you feel so inclined to even shouting, in fact you will not have caught the real potlatch-spirit unless you do express a hilarious spirit in the revelry of the two nights of entertainment. A feature that should also please everyone as nothing will cost more than the insignificant sum of ten cents—thus all can afford to see the potlatch and every dime will go towards help pay for the Gleichen Community Hall. For this cause already thousands of tickets have already been disposed of and the Gleichen high school girls are out to see that twelve thousand of these tickets are sold.

Mr. Archie Ferguson the well-known hardware salesman has kindly offered his services free, will take entire charge of the Potlatch, and he is admittedly the best qualified man in the west in this line, having had a vast amount of experience in such undertakings. Everybody likes to see "Fergie" in action.

Get the Potlatch Spirit.

#### A FEW NOTES

Monday evening a terrific clatter was heard in the vicinity of the Community Hall. Upon investigation almost every able-bodied man in town seemed to be doing his utmost to out-do the other fellow driving nails, but none could tell what it was for. All that could be learned was that "Fergie" had ordered both sides of the street boarded up eight feet high, and orders were being obeyed.

May the weatherman get a touch of the Potlatch spirit for Tuesday and Wednesday next.

The cinderling of Gleichen streets are to be completed Thursday night—get out all you fellows—it's the last chance.

The worst bucking horses and wild steers in Alberta are ready to greet the cowboys and cowgirls—let 'em flicker.

## Story of the Wonderful Unique Indian Potlatch

### FORTY-EIGHT HOURS

Fun Galore Night and Day  
For Both Young and Old

POTLATCH EACH EVENING

The entertainment in the evening will also be unique—the Potlatch.

In towns the size of Gleichen it has ever been somewhat of a conundrum to know how to entertain a crowd at night so that everyone will enjoy themselves. And while the usual dance satisfies many, of which there will be plenty, still there are many who do not dance. Thus after serious consideration it was decided to give a real Indian Potlatch.

Of course, among the thousands who will visit Gleichen there will be few who understand what an Indian potlatch means, which fact will only make it the more interesting. However, we may say there will be at least twenty different points in this to interest the visitor and no matter which one you visit first the last to be visited will be the one that will probably most interest you. There is something in the potlatch spirit that may be described

AGENTS FOR—  
Butterick Patterns  
Empire Cleaning  
A. M. Terrill Florist

**Geo. Matthews, Ltd.**

DELIVERIES—  
10 and 11 A. M.  
3 and 5 P. M.

## Canada's Tied-Up Resources

(Second Article)

Apart from its agricultural lands, the material wealth of Canada is to be found in its natural resources—forests, fisheries and minerals. Through their development for use at home and abroad Canada can obtain much-needed population, traffic for its railways, and financial strength to carry and ultimately discharge the huge national debt of the Dominion.

Why is it, therefore, that in respect to its great mineral wealth so little has been done to develop these resources and thus provide for use by Canadian industries of many of those raw materials, or semi-manufactured products, which at the present time are imported in huge quantities?

The answer cannot be given in a few words, but requires some explanation. In years gone by, protected by a high Customs tariff, Canadian manufacturers had a glorious opportunity to build up their industries in a way where they would have been largely independent of foreign supplies. They neglected their opportunity. Instead of making use of the protection afforded them to develop the coal, iron, copper and other mineral deposits of their own Dominion, they continued to largely import these raw materials, and merely added the amount of the tariff to their selling price and pocketed it as additional profits.

During this period of Canada's history these mineral resources could have been purchased and developed at a fraction of present-day costs. But shortsightedly the manufacturers allowed the opportunity to go unheeded. Others, however, with greater vision began to bestir themselves and quietly, without any flourish of trumpets, United States capitalists and manufacturers have for years past been buying control of the natural resources of Canada.

The policy of United States capitalists and manufacturers has been a far-sighted one, aimed at the accomplishment of two main things. They have secured ownership and control of vital resources in Canada, not with the object of processing with their immediate development for use, but with the deliberate intention of tying them up and preventing present development. To what end was such a policy adopted?

In the first place, so long as Canadian manufacturers were content to go on buying supplies from the United States which they could have obtained for themselves through development of resources at home, just so long were these United States interests securing a very profitable business. Furthermore, as long as Canada's resources remained undeveloped, just so long were those supplies kept from entering into competition with similar supplies from the United States and those interested in the United States enabled to thereby maintain prices and control of trade which full development of Canada's resources would have threatened. In other words, the United States not only retained its best foreign customer, but non-development in Canada enabled United States interests to keep prices up at home and abroad.

But there was another consideration which had great weight with United States investors in their purchase of Canada's undeveloped resources. They foresaw that, with the rapid increase in the population of their country, the day was coming when their own natural resources would become exhausted, or at least prove inadequate to meet their own needs. Taking time by the forelock they therefore have been buying up Canada's undeveloped resources and holding them in an undeveloped state in reserve against the day when they will be urgently required and be multiplied many times in value.

Evidence of the truth of these statements can be found on every hand. Rich deposits of copper are known to exist in Canada but are not being developed. They have passed under United States control. Let an oil well be discovered in Western Canada, as they have been, and they are "capped" and only the surplus overflow which would otherwise be wasted is used while the main flow is held in reserve and trainloads of crude oil from the United States continue to feed refineries in this country. Thus is employment provided in the United States and means of employment checked in Canada; thus is traffic provided for United States railways while Canadian railways are operated at a deficit; thus is Canadian money steadily diverted to the United States when every dollar is needed at home to carry the heavy burden of our war debt.

On the other hand, enormous development is taking place in the pulp and paper industry of Canada. It is growing by leaps and bounds and is being developed for the most part with foreign capital. Why? Because of the depletion of United States pulp resources and the demand for paper across the line. There is more than one paper mill in Canada, using Canadian water power and Canadian logs, owned entirely by United States interests and whose whole output goes to the United States, while Canadians who have sought to purchase paper have been refused so much as a pound.

With some of the most extensive coal areas in the world, the mining of coal in Canada is still in its infancy while Canadians go on importing scores of millions of dollars' worth of coal every year from the United States. Canadian miners are, for the most part, members of a United States Union. Alberta miners are paid as high wages as anywhere on the continent, yet are constantly on strike for long periods and in receipt of "strike pay" from across the line, while United States miners are busy supplying the Canadian market.

Such is the situation in Canada today. What is the use of Parliament spending its time discussing ways and means of promoting immigration, or of how to stop the exodus of people to the United States, or of considering such futile policies as still higher tariff protection in order to stimulate industry and provide employment, when the basic resources of the Dominion through the development of which employment could be provided, not only for the present population, but millions more, are hopelessly tied up and their development prevented as a matter of deliberate policy?

### A Bill To Settle

There is always a day of reckoning for people who resort to inflation and excessive borrowing, as we found during the civil war and the years following the great struggle. Obligations must be met—or repudiated. The contrast between British and French financing and their results is sufficiently illuminating. In finance, to postpone the evil day is only to make it more evil when it finally comes.—Indianapolis News.

### Radio On French Ships

An order has now become effective in France that ships with 2,000 gross tons or more carrying fifty persons, including the crew, and ships having more than twelve passengers must be equipped with a complete radio telegraphic installation. Ships with 500 to 1,999 tons, carrying less than fifty persons, and ships of the same tonnage with the number of passengers not exceeding twelve, must be equipped with a receiver only.

Just because a man profits by his own mistakes is no reason why he should keep on making more.

The actual digging and construction of the Panama Canal took 10 years and three months.

Fresh and carefully packed in pure olive oil. Keep a stock in the pantry for easily prepared, enjoyable meals.

## KING OSCAR SARDINES

### Italian's Latest Invention

Driver Balances "Unicycle" With Body and Uses Feet as Brakes

At last the "unicycle" has been invented by Davide Glalaghi, an officer in the motorcycle police corps of Milan, Italy. The unicycle consists of a large steel loop and an outer revolving wheel fitted with a pneumatic tire. The engine, steering wheel, and driver's seat are constructed within the circumference of the stationary steel hoop, to which the revolving wheel is attached by rollers. The driver balances the machine with his body as it whirls onward, and uses his feet as effective "brakes" whenever he desires to stop.

### Mothers' Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon us at any time and safety lies in having always handy on the shelf a reliable pain reliever like good old "Nerviline." For nearly half a century Nerviline has been a family standby, and most mothers have come to rely upon it in case of colds, sore throat, tight chest, sprains, cramps, nausea and sudden attacks of sickness at the stomach. For internal or external use, Nerviline is worth its weight in gold in every home, and costs but 35 cents at any dealers.

### Expedition In Indus Valley

Col. Theodore and Kermit Roosevelt, heading the James Simpson-Field Museum, Chicago, expedition to Central Asia, have arrived safely at Leh, in the Valley of the Indus. They are proceeding to Kashgar, Eastern Turkestan. All members of the party are well, the messages said.

### She Is Satisfied With the Results

Quebec Lady Used Dodd's Kidney Pills

Madame E. Tremblay Suffered With Neuralgia, Headaches and Pains in Her Back. Grosses Roches, Que.—(Special).—No place appears to be too small to furnish at least one person who is prepared to say that they owe their health to the great Canadian Kidney Remedy, Madame E. Tremblay, a well-known resident here, is one of them.

"Your Dodd's Kidney Pills have done me much good. I am very satisfied with the results. I had pains in my back and head. My sleep was broken and unrefreshing, and my appetite was trifling. Six boxes of Dodd's Kidney Pills have done me much good." Dodd's Kidney Pills are a kidney remedy. They strengthen the kidneys so they can do their full work of straining the impurities out of the blood. Dodd's Kidney Pills have been used for backaches, diabetes, rheumatism, dropsy, urinary troubles and heart disease. People who use them are loud in their praise.

### Distinction

Some men are born famous, some achieve fame, and some send postals to radio stations saying: "Your programme came in fine; we greatly enjoyed the Cod Liver Oil Quartette."

### THANKFUL MOTHERS

Once a mother has used Baby's Own Tablets for her little one who would use nothing else, she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N.S., who writes: "I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house." The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers, or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Is Enjoying Wembley

Eskimo From Baffin Land Falls In Love With Walrus Nanyaving, the Eskimo, who came all the way from Baffin Land to see the British Empire Exhibition, is out and about again.

It will be remembered that on his arrival here, one day of London was enough to lay him low with pneumonia. He spent four weeks in Crouch End Hospital.

Nanyaving, happily, is now well, and is seeing the sights. Recently he went to the Zoo. He was 4 ft. 11 ins. of sheer delight all the time, and fell head over heels in love with "Old Bill," the walrus, and with one of the restaurant waitresses.

As official painter of fantastic jungle creatures, Miss Isabel Cooper, a member of the expedition investigating the Sargasso Sea, lays claim to having "the most peculiar job in the world."

Minard's Liniment for Backache

An Attractive House Frock

A frock for which you will find innumerable uses, one that is practical and yet will fill the need for almost any occasion, is here shown. It may be adapted to any material, worn at any time and is delightfully easy to make. It has kimono sleeves, with shoulder seams, and may be of plain kingham for a house dress, or of tub silk for a sports frock. It may be made with square neck or round neck and collar and with or without cuffs. The pattern, No. 1031, is cut in sizes 34 to 46 inches bust, size 40 requiring 3 1/2 yards of 36 or 40-inch material and 1 1/2 yard of 36-inch contrasting material for trimming.

After 10 Years of Asthma Dr. J. D. Kellogg's Asthma Remedy proved the only relief for one grateful user, and this is but one case among many. Little wonder that it has now become the one recognized remedy on the market. It has earned its fame by its never failing effectiveness. It is earning it to-day, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

### Radio Station In Northern Manitoba

In order to facilitate the work of the air force patrol, radio stations are being erected at The Pas, Norway House, Victoria Beach and Fort Osborne Barracks, Winnipeg. The stations will be completed this month, and will have, it is stated, a radius of communication all over Canada.

### TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps, save the baby's life. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1582

### Some Immigration Facts

Canada Seems to be Favored Country For British Emigrants

Those who think that Europe is dumping its surplus people into the other Dominions in countless swarms while only a small fraction of the emigrants come to Canada, would do well to ponder the figures given to parliament by Hon. J. A. Robb. The minister of immigration pointed out that while South Africa got 7,568 immigrants last year, New Zealand 11,061, Australia 38,500—of which 25,000 travelled free—Canada drew 63,916, of whom only 6,000 were given free passage or loaned the price of the tickets.

Numbers do not tell the whole story by any means in reference to the movement of people. While Canada drew more immigrants than all the other three Dominions combined, the still more important fact was that of those who came the great majority were able to come "on their own." In present times and conditions the newcomer who has means of his own is peculiarly desirable as compared to the one who brings nothing and has to be helped to get here. The newcomers who are able to finance their own transportation thereby demonstrate that they are the kind of people who will be able to take care of themselves after they have got here. Those who are assisted by the gift or loan of passage money may turn out to be equally self-dependent, but there is no way of knowing that beforehand.—Edmonton Bulletin.

### Report Shows Smallpox Becoming More Virulent

Cases Increasing Because People Will Not Be Vaccinated

Smallpox is not only increasing in the number of cases reported in the United States and Canada but the disease shows a decided augmentation in virulence. The case fatality rate among Metropolitan Life Insurance policyholders in 1924 was 1.78 to the 1,000, or more than three times the corresponding rate for 1923.

The same authority reports 52,395 cases of the disease in 1924, against 29,137 in 1923 and 30,291 in 1922. The deaths last year were 931, against 144 in the preceding year and 491 in the year before that.

Increase in number of cases and severity of the disease was forecast several years ago, and is attributed directly to "the presence of millions of unvaccinated persons and of virulent smallpox in the same geographical area," and "an even more unfavorable record may be experienced in the immediate future unless the warnings of public health authorities are heeded."

### Oldest Man Who Served In War

Was Sixty-seven Years at Sea and Served on Troopship

The oldest man who served in the Great War was playing bowls in the grounds of the Royal Alfred Home, Belvedere, Kent, Eng., when a newspaper representative found him.

He is Mr. John Cunningham, age 83, and he retired after his last voyage three years ago, at the supposed age of 65, beyond which few men are employed in the merchant service. Actually he spent 67 years at sea.

"When the war broke out I was at sea," he said. "I had no wish to retire, so I decided to put my age back 15 years."

"During the whole of the war I was on troopships. I helped to bring the first great Australian convoy to Europe and made journeys to and from India and the Mediterranean."

### Gratuities For Soldiers

Amount Paid By the Government to Date is \$162,310,156

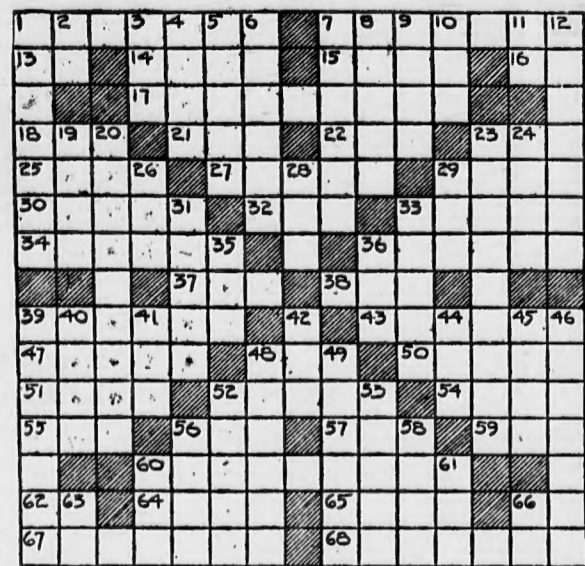

In bonus or gratuities for the soldiers enlisted for the great war, Canada has paid to date \$162,310,156. The annual expenditures under this head dwindled from \$4,607,647 in the fiscal year ended March 31st, 1921, to \$78,639 in the fiscal year just closed. In addition large sums of money have been expended in establishing returned soldiers on farms in different parts of the Dominion, as well as aiding them in building houses, purchasing machinery, cattle, etc., much of which has already been repaid by the soldiers.

### Fish Weighed Five Tons

A skate caught recently weighed 250 lbs., which is 50 lb. more than the naturalists of a century ago thought it ever attained. But the devil fish of the West Indian seas, which, like the common skate, is a ray and resembles it in structure and appearance, is often much larger. One caught in 1923 weighed nearly five tons. In a dramatic account of its capture we read that "three pairs of oxen, one horse and 22 men all pulling together could not convey it far."

Farm laborers in the United States total nearly 4,000,000

### Canadian Wins Prize For Play

Vancouver Author Successful In Contest Open to all Canada

By the final decision of Prof. Glenn Hughes, of the University of Washington, a Vancouver playwright, Miss Marjorie M. Reynolds, has been declared the winner of the Vancouver Little Theatre Association's prize play contest, open to all Canada. Ninety plays were submitted from all parts of the Dominion.

With her one-act play, "The Connoisseur," Miss Reynolds carries off not only the \$50 offered for the best play, but an additional \$50 which was offered should the winning play be classed as a comedy.

Honorably mentioned was "The Roothouse," by Leslie McFarlane, of Halleybury, Ont.

### China Largest Egg Producer

Exported More In 1923 Than Any Other Country

China now produces more eggs than any other country, and in 1923 was the largest exporter of eggs, shipping 91,754,000 dozen to other countries in that year. These exports went mainly to countries bordering on the Pacific Ocean, with the exception of the shipments to England. Japan and Formosa purchase about 75 per cent. of the total Chinese egg exports. The Chinese trade has trebled since 1913. The Chinese eggs are smaller than those produced in the United States, and the greater part of the eggs are used in the manufacture of egg products.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Remover is available.

### Result of Civilization

Progress and civilization—these are what have led man out of the coolness and comparative privacy of a nice cave and made him live in apartments about the size of a dog kennel and hotten a bee hive at high noon.—Detroit Free Press.

For Frost Bites and Chilblains.—Chilblains come from undue exposure to slush and cold and frost bite from the icy winds of winter. In the treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is prompt and its application is extremely simple.

And it takes two fools with but a single thought to generate a full-sized case of mutual jealousy.

John Bunyan, author of "The Pilgrim's Progress," had a blind child, who visited him often in prison.

## Expect Settlement Of Cape Breton Mine Strike Will Be Effected Soon

Sydney, N.S.—"My personal view is that a settlement can, and should be, brought about within the next 10 days," is the concluding paragraph and most cheerful part of a statement issued by Hon. James Murdoch, minister of labor, at the conclusion of his conversations here with district 26, United Mine Workers' executive, and with J. E. McLurg, vice-president of the British Empire Steel Corporation.

Mr. Murdoch has been attempting to conciliate the differences between the two, which for three months and a half have caused a tie-up in the coal fields of the province. The district board of the miners, Mr. Murdoch states, have asked for a few days time to canvas certain questions contained in the company's proposals for a settlement, as submitted to Mr. Murdoch by Mr. McLurg, and to prepare the questions at issue for submission to a referendum vote. The statement says that the district board, when presented with the corporation's proposals, found therein two or three things which appeared almost, if not entirely, impossible of acceptance. Mr. Murdoch also tells of an offer of the miners to return all maintenance men pending a settlement, and of the corporation's refusal, on the ground that they were unable to use all the maintenance men because of the present condition of the mines.

### Senator Lafollette Dead

Political Life Covered More Than Quarter of Century

Washington.—Senator Robert M. Lafollette, for many years a stormy petrel of politics in the United States, died here June 18.

Death came at 1:21 p.m., from heart failure, induced by a general breakdown and an attack of bronchial asthma.

Robert Marion Lafollette, considered one of the most powerful orators in his time, was a storm centre of personal and political controversy throughout the United States and in his home state of Wisconsin for more than quarter of a century.

"Fighting Bob," the name by which he was known to political friends and enemies alike, was a title well earned almost from the moment he stepped into the political arena when scarcely more than a boy. Facing battles such as few, if any, of his political contemporaries were compelled to fight, he served three terms as a member of the House of Representatives and three as governor of Wisconsin, was four times elected to the United States senate, and finally became an independent candidate for president in 1924.

### Crops Ruined By Floods

Three Hundred Acres Destroyed In Districts In Manitoba

Winnipeg.—Seventy-five per cent. of the crops in the Whitesmuth and Birch River districts have been completely ruined by floods according to a report submitted by C. S. Prodan to the Provincial Government. Mr. Prodan had charge of relief operations in the inundated area.

More than 300 acres were flooded, causing considerable property damage and loss of stock. While Mr. Prodan indicated that floods were an annual occurrence in these districts, the situation was the worst experienced in the history of the settlement. Many of the families who are entirely dependent upon their crops for a livelihood, have been reduced to destitution. Twenty-seven families are now being cared for by the provisional relief bureau.

### Belgian Cabinet

Brussels.—After having been ten weeks without a cabinet, Belgium now finds itself possessed of a duly constituted ministry. It is headed by Viscount Poullet. The general council of the Socialist party, by a vote of 49 to 26, gave its approval and adherence to the new regime.

The personnel of the cabinet is made up of Socialists, Liberals, and Catholics.

### Praise Work of I.O.D.E.

Halifax, N.S.—At a session of the annual meeting of the council of the Navy League of Canada, on motion of Major W. H. Langley, of Vancouver, a special vote of thanks was passed to the Daughters of the Empire, which President Sam Harris, of Toronto, described as "the big sister of the Navy League." Reports were received from the various provincial branches.

W. N. U. 1582

### Question of Sea Rates

No Immediate Action to be Taken By Government

Ottawa.—The question of the Peterborough contract and regulation of ocean rates was brought up in the House of Commons on a question by Rt. Hon. Arthur Meighen, Conservative leader. "I want to ask the government if this session is to close," stated Mr. Meighen, "without any action being taken, or recommendation to parliament, in respect to what was called in the speech from the throne 'transportation by sea'."

"We have a report from what should be known as the Petersen committee, but it has lain dormant for some time. Does the government propose to introduce any legislation or ask for any authority from parliament arising from that report, or is this session to end with nothing done?"

Premier Mackenzie King replied that the circumstances under which the government had considered it inadvisable to proceed with the discussion of the report of the committee must be known to the members of the house.

"In view of the sad death of Sir William Petersen," he stated, "we have not thought that it would be fitting to bring into this house, at this time, the discussion of his name in matters relating to his projects. The government, however, intends very carefully to consider the recommendations contained in the report for such action as may be deemed best. I do not think that it will be advisable to contemplate immediate legislation."

### King Will Open Canada Building

Historic Ceremony Takes Place In London, June 29

London.—Arrangements for the formal opening of the new Canada building in Trafalgar Square by King George V. on June 29, have been completed, and the opening will be impressive as well as historic.

The King and Queen will be received before the main entrances of the building by Hon. P. C. Larkin, Canadian high commissioner in London, and at the King's request the doors will be thrown open. Upon their Majesties' entrance the Queen will receive a bouquet from Miss Larkin, daughter of the high commissioner.

The King and Queen will proceed to the dais while the National Anthem is being played by members of the Grenadier Guards band. Then will follow an address to the King, read by Hon. Mr. Larkin and His Majesty's reply. "O Canada" will be played by the band, after which will follow the official presentations of prominent persons to their Majesties.

Their Majesties will then be invited to make an inspection of the building.

### Fielding Will Soon Retire

Veteran Finance Minister Unable to Return to Public Life

Ottawa.—Retirement of Rt. Hon. W. S. Fielding from the post of minister of finance, is expected soon. The decision of the government to grant Mr. Fielding an annuity of \$10,000 is an indication that the veteran finance minister will never be able to return to public life.

For nearly two years Mr. Fielding has been unable to attend to his duties, the work of finance minister being performed by Hon. J. A. Robb, minister of immigration, who will succeed Mr. Fielding in the finance portfolio. Mr. Robb introduced the last two budgets of the present parliament. His retirement will remove from the political field one of the most experienced, resourceful and capable members of the government. His experience as finance minister dates from the year 1896, and he has introduced more budgets than any finance minister in the Empire.

### Abolish Famous Prison

Russian Bastile on Banks of Frozen White Sea to be Closed

Moscow.—The Solovetsky monastery, a desolate forbidding prison camp on Solovetsky Island, in the frozen White Sea, which has been the terror of political offenders under the Soviet regime, will soon become but an echo of the past.

On recommendation of the state political police, the council of people's commissars has decided to abolish the prison.

### Premier Expresses Opinion On the Flag Question

Ottawa.—No action will be taken respecting a Canadian flag without the "full sanction of Parliament," said Premier King in the house in answer to questions as to the government's intentions regarding a Canadian flag. "Personally," said Mr. King, "I would be proud and happy to have the Union Jack represent Canada as a national flag, and would not lend any support to any flag not having the union as its most distinctive feature."

### Boundary Line Settled

Canada Gets 2½ Acres of Water in Lake of the Woods

Minneapolis.—By giving Canada two and a half acres of water, the United States has formally settled an argument which has covered 122 years of treaties, talks and triangulations.

The water will not be transferred until maps now being engraved are completed. But when 38 maps of the boundary from the northwest angle of Lake of the Woods to Lake Superior are issued some time next year, the water will become officially "Canadian," and Minnesota citizens will know at last how far north the state's boundary goes.

Under the treaty between the United States and Canada, which has been approved by the senate, about two and one-half acres of American waters in Lake of the Woods will be transferred to Canadian territory. This does not involve any transfer of land.

## CONDEMNS THE CANCELLATION OF RAIL AGREEMENT

Ottawa.—During the debate on the freight rates bill in the House of Commons, Hon. E. J. McMurray, Liberal, Winnipeg North, condemned cancellation of the Crow agreement. The board of railway commissioners, he said, had acted with "undue and indecent haste in settling aside the Magna Charta of Western Canada's transportation rights." Since 1893 the agreement had been the policy of Liberal and Conservative governments alike. The railway commission should have hesitated to remove it. Mr. McMurray was dissatisfied with the attitude of the government to the whole question. Their present bill was a "poor compromise."

Mr. McMurray urged that Western Canada should have at least one more representative on the railway board. If possible, each western province should have a representative. He also thought Western Canada should have another judge on the supreme court bench.

Mr. McMurray could not see why the Canadian National Railway, with its easier grade and lower operating cost in the mountains, could not reduce rates to the coast, and compel the C.P.R. to reduce also.

He thought that Western Canada was being made to pay whenever the railways found they needed more money. The roads could not increase rates in Eastern Canada because of water competition.

Mr. McMurray said the legislation "looks patched up, and a compromise." It was unfair to British Columbia, and consequently unfair to a large section of the prairie west.

### Will Attend Convention

E. L. STONE

Secretary of the Alberta Division of the C.W.N.A., and Editor and Proprietor of The Review, Redcliffe, Alta. Mr. Stone will attend the convention of weekly newspapermen to be held in Winnipeg on June 24, 25 and 26.

### McMillan Leaves For Arctic

Has Started His Ninth Voyage Into Frozen North

Boston.—The Arctic expedition of Lieut. Commander Donald B. MacMillan sailed from the navy yard at Charlestown, June 17, in the steamer Peary, bound for Wiscasset, Maine. From Wiscasset the Peary and the schooner Bowdoin will sail on MacMillan's ninth voyage into the north.

The big guns on the navy craft anchored in the bay thundered farewell as the little steamer slipped away on the first leg of the trip beyond the Arctic Circle. A navy band on the pier played, "Auld Lang Syne" as the crowd which had gathered in the navy yard cheered lustily. The harbor echoed with the shrieks of marine whistles of nearby craft in the parting tribute.

Overhead a dozen hydro aeroplanes circled.

### Ontario Prospectors Claim Radium Discovery

Provincial Assay Office Finds Samples "Distinctly Radio Active"

Toronto.—The discovery of radium in commercial quantities in Haliburton County, Ont., is claimed by Charles Earl and E. W. Austin, two prospectors who have submitted samples of their find to the provincial assay office. The official finding of the provincial mining authorities is that the samples are "distinctly radio active." A claim of 1,000 acres has been staked by the two prospectors who plan immediate development.

### Propose Canadian Exhibition Train

Ottawa.—Senator Beaubien drew the attention of the senate to the expediency of sending a Canadian exhibition train through Great Britain and asked what action the government proposed to take in this matter.

Senator Dandurand favored the proposal and said he would recommend it to the cabinet.

### Famine Threatens Bessarabia

Bucharest.—The entire province of Bessarabia, which Rumania recovered from Russia as a result of the war, is threatened with famine because of last year's crop failure. The national bank has opened a special credit of \$10,000,000 for sending provisions to the province.

### Would Have Unanimous Consent Of Provinces

Ottawa.—The senate unanimously adopted the following motion by Senator Turgeon: "That, in the opinion of the senate, it is inexpedient that any change take place in the constitution of Canada, as established by the British North America Act and thereto, as set forth in the speech from the throne, at the opening of the present session of parliament, without the unanimous consent of the provinces affected by such a change, to be expressed by the legislatures of the respective provinces."

### Share Geneva Scholarship

Two Students From Saskatchewan University Receive Award

Saskatoon, Sask.—Award of the Geneva scholarship, worth \$550, for attendance at a series of lectures on the League of Nations, and international affairs generally at Geneva, Switzerland, during July and August, has been announced by Professor Frank H. Underhill, of the University of Saskatchewan.

It has been decided to split the scholarship in two, giving \$275 each to A. C. Bunce (Agro) and R. Mainwaring (Emmanuel), two students at the university who are of English birth and who happen to be visiting their parents in England at the present time.

The scholarships, of which it is understood one is given to each Canadian university this year, are donated by the Geneva Federation, a students' organization.

### British Columbia Fruit Crop

Will Equal Last Year's Says President Associated Growers

Vernon, B.C.—J. Chambers, president of the Associated Growers of British Columbia, stated that the fruit crop throughout the entire district from Vernon to Keremeos, would probably equal last year's figures. He estimated the season's output at approximately 2,225,000 packages, which were the figures for last year, or in other words a \$3,500,000 crop.

These figures cover, he said, that portion of the output handled through the organization which represents 75 per cent. of the growers of the valley.

### Amendment to Pensions Bill

Ottawa.—The special committee of the senate considering the Pensions Bill, approved an amendment introduced by Senator Loughheed, declaring that the board of pensions commissioners, represented by one or more commissioners, "may, in its discretion, hold sittings in any part of Canada, for the purpose of hearing evidence or complaints in respect of pensions."

### Many Die In Train Wreck

Hackettstown, N.J.—The death toll of the wreck of the special immigrant train of the Delaware, Lackawanna and Western Railroad at Rockport, Sag., was definitely set at 44 by officials of the railroad. At least a score of persons are still in hospitals at Easton, Phillipsburg and Dover, suffering from injuries.

### Black Rust In Dakota

Fargo, N.D.—A few infections of the early stages of black stem rust have been found in the wheat plots at the State Agricultural College here, but there is no danger, at present, of material rust damage to Red River valley wheat, it was said at the college.

## Amundsen Expedition Has Returned Safely After A Hazardous Trip

### Closer Relations With West Indies

Danger of Islands Becoming Part of the United States

Ottawa.—Expressing the hope that the conference here between the Canadian Government and delegates from the various British possessions in the West Indies may result in a closer knitting together of relationships between Canada and the Indies, members of the delegation from Jamaica, in an interview, stated that at present most of the tourist traffic and trade reaching Jamaica is from the United States, and Jamaicans being Britishers, desire a more intimate relation with Canada and other states of the Empire.

The increasing influence of the United States in both the export and import trade of the West Indies is constantly brought to the attention of the Islanders, the delegates state, and unless Canada and Great Britain wake up to the importance of this trade, and the necessity of encouraging closer relations between the different parts of the Empire, there is grave danger of these islands some day becoming associated, politically, as well as commercially, with the United States.

### France Suggests Arbitration

Vetoes Germany's Suggestion For Pact of Security

Berlin.—France has vetoed the German suggestion for a general pact of security throughout Europe and has suggested, instead, that Germany negotiate with all contiguous nations. France definitely proposes arbitration treaties between Germany and her neighbors instead of the general pact, and then proposes that Germany conclude "with other signatories of the Versailles treaty whose frontiers are contiguous to Germany." Heretofore it had been assumed that Britain and Italy would participate in any treaties growing out of the security negotiations, and the new formula created a sensation in the Wilhelmstrasse, because it clearly limits the arrangements to Germany, France, Belgium, Poland and Czechoslovakia.

### Provinces Can Enact Eight-Hour Day Law

Would Not Apply to Servants of Dominion Government

Ottawa.—The enactment of an eight-hour day law lies generally within the competence of the provincial legislatures, but the authority vested in the legislatures does not enable them to enact an eight-hour day law in relation to servants of the Dominion Government, or for parts of Canada not within the boundaries of the provinces.

This, in substance, is the finding of the Supreme Court of Canada on whether the Dominion Parliament has jurisdiction to pass an eight-hour day law.

### SUNDAY SCHOOL LESSON

JUNE 28

REVIEW—IN JUDEA AND SAMARIA

Golden Text: Ye shall be my witnesses both in Jerusalem, and in all Judea and Samaria, and unto the uttermost part of the earth. Acts 1:8.

Devotional Reading: Psalm 98.

The early church started into existence.—The last time that the disciples talked with Jesus, just before His ascension, He said unto them, "Ye shall be my witnesses both in Jerusalem, and in Judea and Samaria, and unto the uttermost parts of the earth." The lessons of this quarter have shown how these disciples bore their witness to him in Jerusalem, Judea and Samaria.

The apostles, the leaders of the disciples, had had no thought of launching a new movement—the early church, as we call it. They had no organization, no programme. They were terribly startled by the Lord's death and resurrection and ascension. At Jerusalem, as He had bade, they waited, spending the time in prayer. The Day of Pentecost came, and suddenly the cowardice of these men dissolved in courage, their hopelessness in confidence, their powerlessness in power.

On that great day, as Jesus Christ had promised, the Spirit came to the waiting group with wonderful dynamic force, thrilling their utmost being with a new energy and zeal. It was a time of great emotional excitement; they spoke in ecstatic words which conveyed their meaning to all who heard. So carried away with joy were they that outsiders who hastened to the scene even accused them of being drunk. Their wills and hearts were possessed and used by the Holy Spirit.

Oso, Norway.—The Norwegian Government has sent the following message to Raold Amundsen:

"The government send you and your brave companions hearty greetings and congratulations on your wonderful journey. Welcome home."

The Seldt Aeronautical Association sent the explorer this message: "Welcome! Great enthusiasm over your brilliant journey."

The entire Amundsen expedition arrived safely in Spitzbergen in one plane. The party did not return to King's Bay by plane, but was picked up by a fishing boat and conveyed there.

It is reported that the expedition reached north latitude 88 degrees, 39 minutes, or about 100 miles from the North Pole.

Great difficulty was experienced in releasing one of the planes, the N-25, after both machines had become frozen in where they rested on the water lane. The plane was eventually released after twenty-four days of strenuous effort.

When the plane reached North Cape, Spitzbergen, the supply of gasoline had been reduced to 30 gallons. Amundsen believes it is unlikely any land exists in vicinity of the Pole. It is possible that a new attempt to reach the Pole will be made shortly.

### Usmar Given Jail Sentence

Will Serve Five Years For Scalding Boy to Death

Montreal.—Rene Francois De Vieschouwer, in religious life known as Brother Usmar, one of the Belgian Brothers of Mercy, who conduct the orphanage at Huberdeau, Que., was sentenced to five years imprisonment by Mr. Justice Wilson, in the Court of King's Bench.

Brother Usmar was found guilty of manslaughter, in connection with the fatal scalding at the orphanage last January, of eight-year-old Hector Galarneau, an inmate, who died from burns suffered when he was placed in a tub of boiling water by the accused, following the soiling of his clothes.

### Settle Chinese Trouble

Hope Situation Will Be Smoothed Out Without Further Harm to Foreigners

Washington.—Hopes of officials here that the Chinese situation would be smoothed out soon, without further harm to foreigners, have been heightened by dispatches from Shanghai, that settlement of the trouble is near.

Word that envoys from the legations at Peking and Shanghai official had reached a basis for discussion of a settlement plan was welcomed here.

## NEW RECORD IN SIGNING UP ARMS PACT AT GENEVA

Geneva.—Peace and good-will among nations was the dominant note when the international conference on the control of traffic in arms and munitions ended with 18 countries emphasizing their desire for international co-operation by signing the arms traffic convention, and 27 subscribing to the protocol outlawing the use of bacteria and poison gas in war-time.

This is a new record for Geneva. Doubtless many more states will sign after the delegates have advised their home governments.

Great Britain, France, Italy, Japan and the United States were the first to sign the arms traffic convention. All the great powers except France signed the poison gas protocol, but it was officially announced that France would sign later, as M. Bonecourt, himself, desires the honor of affixing his signature in behalf of France when he returns to Geneva.

Germany made good her sole conference declaration that she was ready to subscribe to any international agreement prohibiting gas, being one of the first signatories.

Canada, whose representative, Dr. Walter Riddell, had actively supported the protocol, Nicaragua and Uruguay then signed.

The arms convention will come into force as soon as it is ratified by any 14 states. The gas protocol becomes operative for each signatory as soon as that country deposits its ratification, though a ratifying power will be bound only towards those who have also ratified the treaty.

## NEW SETTLERS FOR WESTERN CANADA

HUNGARIAN farm laborers, recent arrivals in Western Canada over Canadian National lines, who landed at Quebec from the S.S. "Pittsburgh" of the Red Star Line, from Antwerp. These were part of the Hungarian settlers directed to farms in the Vermillion district of Alberta.

GLEICHEN, ALBERTA, WEDNESDAY

BUY AT HOME AND BE EXCLUSIVE

Sure, the world owes you a living, and all you have to do is collect it. But you owe something to the world, and to your own home town. A town, as has often been said, is exactly what its citizens make it. It can get no better than its citizens. It can become bigger and better if it has a chance to develop. Development comes by co-operations and the circulation of dollars. By spending at home ALL that you spend you will have added to its growth and to your own ultimate prosperity.

A dealer in party goods tells us of an instance where in a local society matron, determined upon giving a large and unique function of some sort or another, journeyed to a nearby city to purchase the accoutrements of the banquet table. On the same day that she left Enid the dealer had placed in his window a large assortment of favors, place cards, nut cups and what-not that goes with the proper serving of a social repast. Imagine his surprise when a few days after the lady in question called him up, and in anger wanted to know why he was displaying the very same patterns which she had purchased in the city, thinking she said, that "I was getting something exclusive. And now you have spoiled everything."

Of course, in this instance, the dealer was a gentleman, and consequently could not tell the incensed hostess that she deserved whatever terrible loss of social prestige that might come to her as a result of using something that any one else could by—at home.

The moral? By trading away from home, you retard your home town's growth, your own prosperity, and perhaps, as in this case, you may suffer social "humiliation"—Buy at home, and BE exclusive.

BUSINESS OF BEING AN CANADIAN

A friend, upon being asked as to his church affiliations, answered, "I am a Baptist, but I am not working it very diligently." This brings out a point of more than ordinary importance. The thing of posing as a church member, a business man, a lodge member, a Canadian or any other thing and not being able to qualify is a matter of serious import. If there is anything that would make us bristle up and want to fight it would be that some one had classed us as being un-Canadian. The inhabitants of Canada pride themselves in being Canadians. It means a great deal. It is worthy pride. But—

Being a Canadian carries with it a great responsibility. One cannot simply exist in Canada's Dominion and claimed the distinction of being a Canadian. He may be just a passive Canadian entitled to the distinction by reason of living under the Union Jack. It is true that the Union Jack protects many people not wholly worthy of its exalted standard, and to be fully entitled to the name Canadian, one must square his living with high principles of citizenship that imbued the fathers who founded Canada. These principles govern the man deserving the title. They reach into his business, and are a part of his social activities, his every thought and act. A true red-blooded Canadian cannot conduct his business in a dishonest manner. He cannot stand off and criticize the government without doing his part to correct real or imaginary faults. He must stand upon the principles that make Canadians.

It is the faithful observance of principles and not the fact that one lives under the Union Jack that makes a real Canadian.

NEW IDEAS

It is not the lack of new ideas that holds men back nor is it the ability to generate new ideas that pushes them forward. The value of new ideas is over-rated.

The one thing that takes a man ahead is his ability to get one good idea, and then stick with it through lean and fat years, through war and peace, through fire and blood.

Too many of us jump from one idea to another, from one job to another, scrapping a host of good ideas and good experiences as we race along. Few business ever die from lack of good ideas. Rather they die from lack of men who can carry one idea—good executives, men who can take an assignment and then come back with a package under their arms.

No one except the man who pays the bills knows how expensive it is to experiment with new ideas.

A business man remarked that whenever he heard a man complain of business conditions he always asked him if he knew of their being better in any other place.

Gleichen is beautiful now. Who can ride along our shady streets and see the glory and wonder of the brilliant green of the leaves, rain washed earth, and not be glad they are living in this city?

2:30 p.m. to 5:30 p.m. DailyCouncil meeting Fourth Friday of  
each month at 8 p.m.This office will be closed as follows:  
Sundays, Statutory Holidays and the  
last fortnight of July each year:

ALSO—

First two legal working days of each  
month for meter reading and first two  
legal working days following the  
fifteenth of month for collections, etc.PETER MACLEAN,  
Secretary Treasurer.

Here and There

The popularity of the Nova Scotia apple is rapidly growing in Europe. 1,103,980 barrels and 8,093 boxes were shipped in 1924-25 to ports in England, Scotland and Germany. Shipments also went to Newfoundland, West Indies, Central Canada and the United States.

Production of sugar beets in Canada during 1923 amounted to 159,200 tons, valued at \$1,922,068, and grown on 17,941 acres, according to the Bureau of Statistics. 6,000 acres have been planted to beets this year in Southern Alberta, due to the establishment of a sugar beet factory.

Milton Sills, the well-known movie actor, with a company of 32 other screen artists, passed through Montreal recently to take scenes in "The Come Back" in which he is featured. The party went to Beauchessne, in Northern Quebec. Travelling by another train was a mother skunk and five kitten skunks which will also figure in the picture.

The 286 passengers on the Canadian Pacific S.S. Empress of France completed their 30,000-mile tour of the world on Saturday, May 23, when the vessel docked at New York. At their last stop at Havana, President Machado of Cuba invited the passengers to attend his official inauguration and to witness the unveiling of a statue to the preceding President.

Another aristocratic rancher recently passed through Montreal on a return visit to the ancestral estates in Transylvania, Hungary. This was Baron Josef Casavossy who, with his brother Andre, took over a 1,600-acre ranch last March near Cochrane, Alberta, on the Bow River. Incidentally the Baron was a passenger on the Trans-Canada on its first return trip of the season from Vancouver.

The Indian Day Celebration at Banff, it is announced, will take place as usual this year on the third Thursday and Friday in July. Preparations are already under way for this event, which enjoys an enviable reputation as an Indian show. The Stoney Indians arrive in large numbers from their reservation to take part in the ceremonies, which are the 23rd annual celebration of the function.

Edward G. Taylor, one of the best known game fishermen on the continent is authority for the statement that New Brunswick is losing none of its lure as a fisherman's paradise. Just back from a trip to the Caline River, N.B., Mr. Taylor said salmon were steadily increasing in numbers and size in the province. He added that he had caught on this trip a salmon 42 inches long and weighing 24 lbs. In the autumn such a fish would likely weigh up to fifty pounds.

The following story is told of Sir William Van Horne, first president of the Canadian Pacific Railway and a Major Rogers, who was in charge of the supplies for men working along the track. Van Horne said: "Look here, Major, I hear your men won't stay with you, they say you starve them." "Taint so, Van." "Well, I'm told you feed 'em on soup made out of water flavored with old ham canvas covers." "Taint so, Van, I didn't never have no hams."—From "Canada's Great Highway," by J. H. E. Secretan.

The Western railways of the United States comprising 67 roads serving Chicago and the West, have petitioned the Inter-State Commerce Commission for permission to advance rates. They state that for the years 1921 to 1924 inclusive, the average rate of return on capital was 3.55 per cent., which they claim is so small as to render it impossible for them to secure working capital for extensions and improvement of service by the sale of stock or issue of bonds at reasonable terms. They ask for rates that would give them a net return of 5% per cent., which it is generally admitted is what railroads should have.

## COMING EVENTS

Ads. under Coming Events 25c. per column line, unless otherwise specified in the text.

June 27—At Com. Hall "Side Show of Life." Comedy "Love Birds".

June 30 & July 1—Gleichen Stampede and Carnival.

July 4—"Manhattan" at Community Hall. Comedy "Always Late."

July 18 to 24—Chautauqua Entertainment at Gleichen.

Every Monday—H. D. Powers, the Eye Specialist at the Queen's Hotel

## TOWN AND DISTRICT

See him smiling—the rain does it every time.

July 6—Regular Meeting Golden Jubilee Lodge K. of P.

Mrs. Selvie arrived last week from North Dakota to visit her daughter Mrs. J. E. Menard and son Ashel.

After the stampede the next big Gleichen event is Chautauqua—July 18th to 24th.

Famous 1st of July last words: "Now watch me hold it in my hand and let it go off!"

Alderman George Moss has started on the work of moving his Lethbridge Brewery warehouse across the street.

Mrs. S. J. Hedges was taken up to Calgary again last week for special treatment, where she spent a good part of last winter. Her many friends hope she will soon return in good health once more.

Last night Stabback & Brown's store was visited by professional thieves and about \$140 worth of goods is missing. A space along side the Yale lock on the front door was neatly cut out and the bolt shoved back to gain entrance.

Sunday next, being the last Sunday in the quarter, the regular missionary offering will be taken in the Sunday school session of the United Church. Parents are asked to note this. This offering will complete the first year for the definite missionary offering of the school.

The next meeting of Golden Jubilee Lodge K. of P. will be held in the Masonic Hall on Monday, July 6th. Besides other important business to be transacted eleven candidates are to be given the third degree and as the degree team has decided to go after at least one of the fine prizes they invite criticism.

The "All Blacks" made their first appearance on Gleichen streets this morning and certainly look fine in their new harness hauling the big new grain wagons. For the present "Slim" Moorehouse is devoting most of his time to training the leaders in turning and stepping over the chains.

J. P. Trettevik and family have left for Seattle, Wash., where they will make their home in future. Mr. Trettevik has been secretary of the Board of Trade for sometime and as he proved very capable his departure is to be regretted. He is succeeded as manager of the Crown Lumber Co. by Mr. Dean Scepter, Sask., who has arrived with his wife.

Adam Stabback arrived this morning from Woodville, Ontario, to visit his son R. M. Stabback and daughter Mrs. Geo. W. Evans. He is the first to arrive from the east to attend the Stampede and Potlatch and he hopes that he will get something real fishes to ride and is not particular as to a bronck or steer. When the C.P.R. learned he was coming to our stampede he was rushed through and the "Flier" stopped at Gleichen to let him off here.

The Gleichen Brass Band will give their first concert on Sunday evening next, June 28th, in the Community Hall. The concert will commence at 9 o'clock sharp. They will be assisted by two Calgary artists. The admission is free, but in order to defray expenses a silver collection will be taken at the door.

Come and enjoy yourself for an hour. Everybody welcome.

LOST—Spare Tire 31x4. Finder, please return to Stabback & Brown, Gleichen.

Gleichen Stampede and Potlatch June 30 and July 1, 1925.

## Wholesome---

delicious, satisfying—"Alberta's Pride" is unrivalled in flavor among all pure malt beers.

## ST. ANDREW'S CHURCH SERVICES

Sunday School (senior class only) 10:15 a.m.

Children's Service 11 a.m.

Evening 7:30 p.m.

Please Note—It is specially requested that we have a good children's service at 11 a.m., and it is hoped that as many of the parents as possible attend the 11 o'clock service.

Mr. Batchelor will talk to the senior Sunday school scholars at 10:15 a.m.

As this will possibly be Mr. Batchelor's last Sunday with us we would like to have the church filled at the 7:30 p.m. service.

## THE UNION CHURCH OF CANADA

REV. H. J. BEAVAN, Minister Phone 24

11 a.m. Sunday school and Bible classes.

3 p.m. Alton School.

7:30 p.m. Alton Schoolhouse.

You are extended a cordial welcome. Visitors and strangers are cordially invited.

In the "Side Show of Life" coming to the Community Hall June 27th, you will see a real circus performance, experience all the thrill of the real thing just as you would if the big show itself were to come to town. A picture for old and young. Don't miss it.

## U. F. A. SERVICE

U. F. A. Sunday was observed by the Gleichen local in a special service held in the Meadow Brook Community Hall. There was a first class attendance in spite of the heat. The service was conducted by Rev. Bevan of the United Church. The singing was led by the choir of the church under Mr. O. Cantelon. The two anthems were well sung and much appreciated. Fortunately the storm did not break until most of the congregation at any rate had a chance to reach home. The U. F. A. can write a successful service into their records.

Gleichen Chautauqua, July 18-24.

The Call has been patiently waiting for a long time for a number of subscribers to pay up and having almost reached our limit will very much appreciate the few dollars due as we really need the amount.

Gleichen Stampede and Potlatch June 30 and July 1, 1925.

## SHOULDICE ITEMS

(From our Own Correspondent)

The dance given in the Crum Hall on the evening of June 12th, was a success both socially and financially.

The Crum Brothers gave the use of their hall to the Women's Institute for the occasion. The A.Q.M. Orchestra donated their services. Many dance tickets were sold, more paid as they entered the hall, and Mrs. Farquharson, our secretary, donated a goose, which was sold after supper for \$10.45.

The net proceeds from the evening are to be applied on the new Maister piano, which was presented on June 4th last.

A large crowd attended the dance, all having a good time and assured the ladies that they will come again. We thank all who so kindly assisted us in so many ways and promise more good times in the future.

Nurse Weiburg, of Drumheller, has located in Shouldice and is prepared to go out nursing when called upon. A nurse in the community is a great benefit as we can never say how soon or when we may feel the need of professional nursing in the house, and what a comfort to know there is one right in our midst.

Crops are doing well, although the district was not suffering for the want of moisture, these last rains give the assurance of a good crop. All are rejoicing over the crop prospects.

Last Sunday there was a great stampede at the Wallace farm. Quite a crowd of onlookers were present and were greatly surprised at the ability displayed by the young riders.

Mr. and Mrs. Clate Williams are the proud parents of another boy, born last week. Mother and child are reported as doing well under the care of Mrs. Pobst in Gleichen.

Mr. Walker, one of our townsmen devoted Saturday, June 20th, to the task of trimming the ladies bobbed hair. No wonder he was too tired to play ball that evening.

Mrs. Crum has moved into her new building where she is quite comfortably situated to care for her increasing restaurant business.

The McRae General Store Co. has installed an unusually large oil tank. This is an underground tank and will supply oil for all of Shouldice.

Mrs. Geo. Farquharson is hostess on June 25th, entertaining the W. I. in the Crum Hall in Shouldice.

On account of the rain of Wed., June 10th, the Women's Institute met the following day at Mrs. Hall's home. Owing to the unusually heavy roads the Shouldice ladies went to the meeting in a wagon, and, we wonder if there ever was a more jolly wagon load of women driving out to a meeting of any kind before. They sang continuously going to the meeting and were just as musical making the return trip. Mrs. Parker prepared a paper on "Mother's Day" and was unable to attend so Mrs. Weibury read the paper. The paper was a masterpiece and Mrs. Weibury is a wonderful reader. The children were entertained by a story told to them by Mrs. Weibury.

Three more members were added to the growing list.

Where is the day belt? Not in the Shouldice district.

Mrs. Soper returned from High River about two weeks ago with a baby girl born about May 19th.

Frank and Nellie have promised a feature dance at our next dance. Don't fail to be there.

Mr. and Mrs. McRae motored to Vulcan last Sunday.

Shouldice received another good rain Sunday.

Needed—A butcher shop.

See "Scotty" Davidson's wall paper

The Gleichen Post office will close during the summer months of June, July and August, on Wednesday afternoon, from 1 p.m.

Gleichen is to have real old-timers re-union about August 1st and have already the promise of Mr. Harold W. Riley, secretary of the Southern Alberta Pioneers' and Old Timers Association, to be present and bring his wide-famed pictures of early days. Look for exact date and be prepared to be on hand. It will be worth your time.

The Call continues to meet the best prices quoted for job printing in any part of Canada. Bring your quotations to this office and discuss the quality of paper, etc. included. Let us compare prices with any of the prices of any part of the world.

Keep your eye on the label of this paper and jack us up if we have not given you proper credit. We are making many corrections to our mailing list and some mistakes may be made.

## MINUTES OF BLACKFOOT M.D. MEETING

SIXTH MEETING 1925

(Continued from Division 1, \$523.00; Division 2, \$85.00; Division 3, \$15.00; Division 4, \$148.50 and Division 5 \$11.00. The motion carried.

Coun. McBean: That we instruct the secretary to bill Messrs. Edw. Christensen and Geo. B. Nygard with one half the amount paid for drawing the agreement regarding the draining of the slough on the S. E. 19 and S. W. 20 in 24-21-4. Carried.

The attention of Councillors Dunstan and Rasmussen was drawn to the fact that their estimates exceeded their appropriations. These councillors agreed to have the matter attended to and to return their estimates as soon as possible.

A letter was read from R. S. McQueen purchaser of that part of the S. W. 28-22-23-4 lying north of the C. P. R. requesting the council to cancel the road diversion running across this land and thereby dividing it into two irregularly shaped parcels and to open up a new road along the northern boundary of this land. The matter was carefully looked into and the council were of the opinion that the whole expense should not be borne by the municipality.

Coun. McBean: That the matter be referred to the road commissioner to investigate and report at the next meeting. Carried.

Correspondence from Mr. Edw. Christensen with an attached account for \$899.60 for tile used in connection with the draining of the slough on the S. E. 19 and S. W. 20-24-21-4 was read. Mr. Christensen asked that drainage work be inspected and if found satisfactory that a check for the cost of the tile be sent him as per agreement entered into at the last meeting of the council.

Coun. Dunstan: That the secretary be instructed to pay the account after the work had been approved of by the road commissioner and the councillor for that division. Carried.

Coun. Maynard: That all culverts be built to the following specifications:

Decks and sidewalks to be of six inch square timbers and the mud sills of materials not less than three inches by eight inches and to extend about one foot beyond the sides of the culvert. Carried.

Coun. Maynard: That no culvert shall be less than one and one-half feet by two feet inside measure unless so recommended by the road commissioner. Carried.

Coun. McBean: That a tracing of a standard culvert built according to the above specifications be procured and kept on file in the municipal office and that a blue print thereof be furnished each councillor. Carried.

The weed inspector gave a short report of the convention of weed inspectors held at Olds on the 19 and 20 of last month. He stated that the policy of the department appeared to be in the line of organizing, educating and co-operating with the municipalities in an attempt to control the weeds. With that object in view the province had been divided into 17 districts with a supervisor in charge of each. The work of the supervisor is to visit the various units within his district, to give any needed assistance to the weed inspectors and councils and generally to see that the provisions of the Noxious Weeds Act are enforced.

Coun. Daw: That the report be received and filed. Carried.

The reeve then gave a report on the municipal hall convention held at Calgary on March 19th last. He read the various resolutions brought before that meeting and outlined how they were dealt with.

Coun. McBean: That the report be received and filed. Carried.

Councillor Dunstan extended an invitation to the council, the road commissioner and the secretary to attend a meeting of the ratepayers of that part of the municipality to be held in Chancellors at 2 p.m. on the 14 of next month.

Coun. Rasmussen: That we hold our next regular meeting at Chancellors on Tuesday the 14th of July at 10 a.m. and that we accept the invitation of Councillor Dunstan and attend a ratepayers meeting being held on the afternoon of that day at Chancellors. Carried.

The secretary read circulars regarding the pale cutworm outlining its life history, its habits and the best

## DUTCH SETTLERS FOR WEST

A FAMILY of Dutch settlers recently arrived in Western Canada over Canadian National Railways after crossing from Antwerp on the S.S. Zeeland of the Red Star Line. Many settlers of this type are moving to the prairie provinces during the present season and they give promise of becoming splendid farmers.

## IMPOUNDED

These horses were impounded in the Blackfoot Reserve pound, four miles south of Cluny, and will be sold On the 8th day of July, 1925, unless redeemed previous to this date.

known methods of control. He also read the department's advice as to the best method of destroying both the potato beetle and the caragana bug.

These circulars and letters are on file in the municipal office for the use of those interested.

Considerable discussion took place regarding the Domestic Animals Act as many complaints are being received regarding animals running at large, and as the municipal council would be glad to attend to these complaints but have no authority to engage competent help to attend to

the impounding of such animals they take this opportunity of drawing the attention of everyone to the fact that the enforcing of the provisions of this act becomes the duty of every ratepayer within the municipality.

Coun. Rasmussen: That we adjourn. Carried.

All changes for Ads. MUST be at Call office by 12 noon each Monday.

Read this again to get it. He whose laugh lasts laughs best Gleichen Chautauqua, July 18-24.

WORLD HAPPENINGS  
BRIEFLY TOLD

Robert E. A. Graham, one of Canada's foremost livestock men and one of the best judges on the continent, died in Toronto, June 11.

Henry Roy Davis, of Milner, B.C., fourth year medical student at McGill University, will represent Canadian universities at Wembley during the month of August.

Prof. Basil Williams, of McGill University, is to succeed Sir Richard Lodge, who is retiring, as head of the department of history at the University of Edinburgh.

Persia has withdrawn from the arms conference because of the conference decision that Persian ships in the Gulf of Persia could be searched if suspected of engaging in forbidden arms traffic.

The tomb of Virgil at Naples has been purchased by the Italian Government and a large sum will be expended in restoring the ancient Latin poet's resting place as part of this year's celebration in his honor.

Mme. Marusa Trejke, wife of a Russian colonel, has been sentenced to death for her activities as head of a notorious group of anti-Soviet bandits who terrorized the whole of the Ukraine for more than two years.

An extensive programme of dental health, embracing examination and dental service to immigrants, was outlined at the annual meeting of the Canadian dental hygiene council held at Toronto.

"Trade between Canada and India is developing steadily with an increasing market offering for timber and machinery," said H. A. Chisholm, Canadian trade commissioner at Calcutta, who arrived in Victoria recently on board the liner Empress of Russia.

The Jerusalem correspondent of the London Daily Mail says the shrine of the Holy Sepulchre has been discovered to be in a highly dangerous condition, the plinth and parts of the marble facing of the outer walls bulging badly.

Dr. Mack Eastman, professor of history at the University of British Columbia, will leave in a few days for Geneva, where he will be in the employ of the department of labor of the League of Nations. He has been granted a year's leave of absence from the university.

Germany will be a member of the League of Nations by the autumn, and at the next session of the United States in December decision will be reached that will make the United States a member of the world court. Sir George Foster expressed this opinion in an address at Montreal on the League of Nations.

Many Compliments For  
Empire Exhibition

Wembley Show This Year Could Not Be Improved On

The finished and much improved appearance of the British Empire Exhibition this year has been generally recognized and has formed the subject of complimentary comment since the opening of the big show at Wembley. The beautiful gardens, the wonderful illuminations, the catering for the big crowd, and the entire layout of the exhibition leave little, if anything, that could be improved upon.

Unfortunately, through the misreading of a Canadian Press cable recently in connection with a comparison which was made between the Wembley show and the International show at Paris, it was made to appear that the former was not in readiness at the opening, whereas the Paris exhibition was. What was intended to be conveyed in the cable was that the Wembley show had emerged with complete credit with its readiness for receiving visitors from the opening day onward.

## Canada and New Zealand

Some idea of Canada's trade with New Zealand can be gathered from the fact that exports from Canada during the month of February, 1925, amounted to \$1,632,577, of which amount \$128,550 was made up of agricultural and vegetable products, while wool, wood products and paper amounted to \$172,343. The greatest amount was furnished by iron and iron products, exports of which in the month of February amounted to \$872,713.

## Animals Being Acclimatized

Ninety sacred baboons from Abyssinia have reached the London Zoo, and, until acclimatized, will be put into a cage supplied with radiant heat and light. Sheltered ledges outside the cage will be electrically warmed by rays of artificial sunshine.

Why blame the hotel patron for kicking when he has to pay good dollars for poor quarters?

Believe In Success  
Of Non-Stop Flight

French Aviators Preparing For Paris-New York Trip

"Our chances of success are five in 100, and that is sufficient," said Paul Tarascon, war-maimed aviator, when questioned about the proposed Paris-New York non-stop flight which he and another war ace, Francis Coll, will attempt this summer.

"The big jump can be made. Given a smooth working motor and a sound navigating plane with a lifting capacity sufficient to take off with enough fuel to stay in the air 30 hours, the Paris-New York flight is no more difficult than several feats performed in recent years," Coll opined. Expert mechanics are now busy tuning up the motor, while plane builders are putting the finishing touches to the machine. The latter part of July has been fixed as the probable time.

Five thousand litres of fuel and oil which the plane must carry at the start present a problem. How to store this liquid without interfering with the stability of the plane is causing the experts much trouble.

England, Ireland, Newfoundland, and Nova Scotia is the proposed itinerary.

Sweden Developing  
Electrical Power

Intends In Time To Electrify All Of Its Railroads

After having ruled supreme for 100 years, steam is being routed in Sweden as motive power in transportation both on land and sea. The most recently published statistics show that of all the boats now under construction in Swedish shipyards, more than 80 per cent. are to be propelled by motors, and on the railroads the old-fashioned locomotives are being discarded in favor of either electrical engines or motor trucks. Having no coal and plenty of water power, Sweden intends in time to electrify all its railroads.

In the meantime motor driven trucks are rapidly displacing the steam engines on shorter hauls. The Hailstad-Nassjö line, for instance, has converted an ordinary automobile into a railroad truck, capable of hauling three and a half tons at 25 miles an hour. Railroad trucks with Diesel motors, which burn crude oil, are still more economical, and the Deva Company of Cesteras has completed 25 of this type and has ten more under construction.

## To Rebuild Minaki Inn

Guests Will Be Accommodated at the Lodge and Resort Is Open as Usual

Immediate steps will be taken to rebuild the Minaki Inn, burned to the ground recently. Loss through fire to buildings and equipment has been estimated at \$150,000, fully covered by insurance. The management of the Canadian National Railways announces that preparations have been made to accommodate guests at the Lodge at Minaki, which was undamaged by fire. New equipment to be installed in this building under the direction of the manager, H. T. Knight, will permit the opening for the reception of guests on June 27. The lodge was originally intended for the housing of winter guests, and is one of the most substantial buildings at Minaki.

The fire destroyed only the main building and contents. The dance pavilion, boat house, swimming accommodations and ice house were untouched by flames and will be operated as in past years. The new golf course was in no way damaged by the fire.

## Winnipeg Summer Fair

Educational Features Will Occupy An Important Place

Educational features will have an important place in the Winnipeg summer fair, as more than three hundred feet of space have been set aside, and will be devoted to special demonstrations and instructive subjects, dealing with vital subjects affecting the city, home and nation.

Among the set pieces to be seen during the two weeks will be those dealing with early trading with the Indians; the granting of the royal charter by King Charles II. in 1670; Prince Rupert; the first governor of the Hudson's Bay Company; Sir Robert Molesworth Kindersley, G.B.E., the present governor; the purchasing of the Red River land from the Indians; King George V.; Queen Mary; Lord Byng; Lord Selkirk; Sir Arthur Currie; Sir James Aikins; Premier John Bracken; Mayor R. H. Webb; City Clerk Chas. Brown; flags; provincial and city emblems; coat-of-arms of Canada; historical events; and other famous personages.

There is no future in being a Balkan statesman.

## THE NEW CHATEAU LAKE LOUISE

This new nine-story hotel, occupying the ground space of an entire city block, was taken over from the contractors two weeks before its opening on June 1, by the Canadian Pacific Railway. It is the new Chateau Lake Louise, built last winter at a cost of two million dollars on the banks of the famous Lake Louise 6,500 feet up in the Canadian Rockies.

To equip this new hotel and stock it with food for guest occupancy on June 1, 800 beds, 390 bureau, 780 chairs, 390 pieces of upholstery, 390 desks for rooms, with sheets and pillow cases, box bed springs and other equipment to match, had to be transported three and a half miles up a narrow gauge mountain railway. The perishable food which had to be stocked in the hotel the day before its opening, included 11,000 pounds of

turkey, 8,000 pounds of roasting fowl, 18 whole lamb, 12 whole hogs, 1,000 pounds of new cabbage, 40 cases of grapefruit and 20 cases of fresh spinach. Approximately 7,000 eggs had to be rushed from the C.P.R. farms at Strathcona, Alberta, and placed in refrigeration.

Of the non-perishable foodstuffs, five tons of potatoes, 300 sacks of flour, 20 tons of sugar, 3,000 pounds of butter, a ton of tea and a thousand pounds of fresh coffee had to be placed in the larders.

All told, a special train of eight cars carrying 350 tons of foodstuffs was required to open this remarkable edifice. And all of this had to be rushed in at the last moment; for the opening banquet at the hotel seated the full capacity of the new dining rooms of 500 persons.

A staff of 425 men and women, in-

cluding three managers, had to be on hand a week before its opening. These employees have a building to themselves equipped with rooms with bath, hot and cold running water, a rotunda and a ballroom.

The new Chateau Lake Louise has 400 rooms with bath, all outside rooms, 210 of them with southern exposure facing the famous lake.

Besides telegraph and cable offices in the rotunda, each bedroom contains a phone which can be connected with long distance.

A resident doctor and trained nurse will have offices in this building to look after the health of its guests; and a special dining room has been built for the maids, nurses and younger children of the guests.

Chateau Lake Louise is now said to be the largest and most modern equipped chateau in the world.

## Wheat Outlook In U. S.

Large Percentage of Winter Wheat Acreage Has Been Abandoned

If wheat goes to a fancy price next fall, American farmers will not be the principal beneficiaries. The crop in this country does not promise very well according to a government report, says the Buffalo Express. More than half the winter wheat acreage was abandoned in Washington, Montana, Oregon, New Mexico and Texas, and nearly a quarter of the acreage in the entire country. Estimates as to spring wheat acreage are not yet accurate, but the guess is that it will not be above the average as to either quantity or quality.

Canada is reported to have planted an acreage fully as large as last year, with soil conditions and moisture excellent. Prospects in other countries are good, also, it is said. This country may not have much exportable surplus wheat this year. That will mean a benefit to other producing countries if the price, as is expected, remains high.

## Powerful Indian Prince Dies

The Maharajah of Gualior, one of India's richest and most powerful princes, died suddenly in Paris. He was cremated in modern style, wearing his royal robes and with all his jewels, after efforts had failed to have his body burned on a great open air funeral pyre in Paris, in accordance with his religious rites.

Bamboo, when young, can be snapped off and eaten like asparagus.

## Award Road Contracts

Saskatchewan Government Spending Considerable Money In Road Improvements This Year

Considerable road improvement is being carried out in Saskatchewan during the present season and the Provincial Government recently let contracts for road work totalling \$87,000. The new work includes improvement of the road from Maltstone east for nine miles, at a cost of \$11,000; improvement of the road from Saskatoon to Grandora at a cost of \$12,000; improvement of the road from Bladworth north for six miles at a cost of \$7,500; improvement of the road from Corinne south, five miles, at a cost of \$4,500; and improvement of the road from Kenaston to Hanley at a cost of \$12,400.

Improvement of a road from Trossachs east at a cost of \$13,000; improvement of road from Quill Lake to Watson and three miles north of Watson at a cost of \$16,000.

## Well Qualified

Prospective Employer—But can you get up in the morning?  
Maid Applicant—Can I? Why, in my last place, I used to be up and have all the beds made before anyone else was up.

"Do you think, young man, that you could give my daughter all she asks for?"

"I think so," murmured the lover bashfully. "She says she wants only me."

## World Scarcity In Wheat

Factor That Will Likely Hold Prices Up For Some Time

Blue ruin gentlemen, who do not like to see the farmers happy, tell them that high wheat prices cannot last because those prices are supported solely by speculation.

They say that the bottom may drop out of the wheat market any day that some gambling ring wants it to drop. The farmers should not worry too much about it. There is one factor that will probably hold wheat prices up for years.

Normally, Russia produces one billion bushels of wheat. For the past few years Russian wheat has not been a factor in world markets. Nor will it be a factor for years to come.—Vancouver Sun.

## Best Pastime For Hogs

Sudan grass had a slight superiority over Marrow-stemmed kale in a test made with Berkshire and Yorkshire hogs at the Central Experimental Farm, Ottawa, in 1923. There was little difference in the actual feeding value of the two pastures, but the Sudan was ready earlier than the kale and supplied green feed for a period of nine days longer.

## The Soft Answer

Persistent Interrupter. — "Liar! Liar!"

Speaker—"If our friend will give me his name instead of his profession, I shall be delighted to make his acquaintance."

How Bolshevik Rule  
Is Hampering Russia

Country Used To Furnish Bulk of World's Platinum

How greatly Bolshevik rule in Russia has interrupted the development of that country's natural resources is well illustrated in the case of platinum, one of the rarest of metals, occurring, indeed, in workable quantities in but a few widely scattered localities. Yet it is of great industrial importance and practically indispensable in the chemical industry and in some industrial arts. Outside of the platinum group of metals, palladium, iridium, osmium, ruthenium and rhodium, with which it frequently occurs in natural combination, no satisfactory substitute has been found. Reviewing the situation and the present limited output, the National Bank of Commerce of New York recently placed the total world output of platinum in 1924 at around 88,000 ounces, which was less than one-third that of 1913, when Russia alone supplied 250,000 ounces. That country formerly mined from 90 to 95 per cent. of total world output. After 1914, due to a number of causes, production declined drastically to such an extent that by the close of the World War the annual output amounted to 25,000 to 30,000 ounces.

## Return Of Natural Resources

Stated That Action Would Be Of Doubtful Monetary Benefit

While expressing the belief that the western provinces should control their natural resources, Hon. Charles Stewart, minister of the interior, stated in the House of Commons that he doubted whether there would be any monetary gain to the province of Alberta from having control. The minister referred specifically to Alberta because E. J. Garland (Progressive, Bow River) had asked him whether he did not think that the return of the natural resources to this province would be a wise step.

The minister had pointed out the extent of the work in connection with mining leases, grazing lands, etc., in Alberta, and expressed the opinion that the federal department of the interior had almost as much responsibility on its shoulders in connection with Alberta as had the provincial government of that province.

Nansen Planning To  
Explore North Pole

Will Use Dirigible To Make Trip In 1927

Dr. Fridtjof Nansen, Arctic explorer and diplomat, and Commander Walter Bruns, German aeronautic authority, have evolved a plan to explore the North Pole region with a dirigible in 1927.

The airship will have a capacity of 150,000 cubic meters, capable of carrying a party of 50, with provisions for ninety days.

The plans call for a trip from Amsterdam to Yokohama, by way of the Pole, in five and a half days.

## Teachers To Tour

Toronto Teachers To Make Extensive Tour of the West

A three weeks tour of Canada by teachers and their friends, under the auspices of Dean S. Laird, of Macdonald College, will leave Toronto on July 20 by the Canadian Pacific Railway. The party will travel by train direct to Vancouver and Victoria and will return by way of Southern British Columbia, across the northern part of the prairie provinces and by boat from Fort William east. Stops will be made at all the principal points of interest.

## Settlers For Vancouver Island

New settlers continue to arrive for Vancouver Island, the majority of them with means. The greater number are Old Country people, ex-European Government and other officials from the Orient and retired well-to-do business men from Eastern Canada, California and Florida.

## To Lay New Cable

It is understood that a contract has been let for the manufacture of a submarine cable to be laid from Vancouver Island to Suva, Fiji Islands, by the Pacific cable board. This is part of the "all-red" cable and wireless route, which is being established between British possessions the world over.

## No Doubt About It

"Pardon me, but I think we have some common ancestors," began the young man in the bright green cap. "No doubt you have," replied Miss Cutting, as she turned her back.

A fish hook 5,000 years old is found in the ruins of Kish. And where there is a fish hook there's a good story. Let the search proceed.

The only way you can hurt someone is by striking them on the pocket book.

Sauce For  
The Goose

More Co-operation and a Better Understanding Needed Between the East and the West

At the dinner given by the Quebec division of the Canadian Manufacturers' Association, an attempt was made to have all the provinces represented on the bill of fare. Saskatchewan was represented by "Salad" and Manitoba by "Sauce," while Alberta was recognized by serving "Assorted Cakes."

These are all very light refreshments to represent the hardy sons of toil of the plains, but what else could one expect from such an organization? They represent very well the amount of consideration Western Canada has received at their hands. A little Saskatchewan salad, over which is poured some Manitoba sauce, with a few Alberta assorted cakes as a tit-bit may do as a filler, but as substantial fare will not go far in satisfying a young, strong robust man.

Now, these prairie provinces are dishing up to the Canadian manufacturers something far more substantial upon which they are feeding sumptuously every day. We in the west are but human like the rest of folk. It gives us pleasure to help another; it also affords us pleasure when we receive, with good grace, from others. Western Canada is certainly doing its part to place our country on the map. Its products are known world-wide and we are today contributing considerably to the wealth of Canada. We feel, therefore, that there is a little more than salad, sauce, or assorted cakes coming to us when our wishes and needs are being discussed by our eastern friends.

If you give a person too much of any one food, it becomes nauseating and a variety must be made if full development is to be attained. The west feels that a little change in diet would be very beneficial if full development is to be attained. The west feels that a little change in diet would be very beneficial if full development is to be hoped for, and as our prosperity is soon reflected by prosperity in the east, it should not be difficult to have a change brought about. This can be done by a little more sympathetic co-operation between the middle east and the west. Each needs the other if both are to develop as we hope, but a little less selfishness will have to be shown by the highly-protected east, and a little more appreciation of what the west means to the prosperity and greatness of Canada.—Moose Jaw Times.

## Prize Cattle Shipped

Big Shipment Is Made Of Prize Cattle From Alberta

The first consignment of export cattle for 1925 left Montreal recently, consisting of two hundred and seven head shipped by the Livestock Producers' Association of Alberta, and averaging around twelve hundred pounds in weight at three years of age. One hundred and twenty-five of the number came direct from Edmonton spring show where they had captured the first five prizes in the carload class. Others included in the lot were the grand champion steer formerly owned by the University of Alberta, and five Hereford steers that took first place at Regina, Calgary and Saskatoon shows.

## May Buy Another Farm

South African Farming Has Greatly Interested Prince of Wales

With regard to a report that the Prince of Wales has entertained the idea of returning to South Africa for big game shooting, the general impression is that His Royal Highness is not particularly interested in big game and this seems to be borne out by his recent cancellation of a projected visit to a game reserve.

The Prince, however, throughout his tour in South Africa, has shown the deepest possible interest in farming, and South African farmers who have spoken to him think it quite possible that he may buy a farm and encourage horse breeding and the raising of sheep and dairy cattle in this country.

## Canada's Fruit Production

Fruit production in Canada during 1924 had a value of \$24,266,431, a decrease from the figures of the previous year, due principally to smaller quantities, according to a bulletin of the federal bureau of statistics. The following are the principal items of production: Apples, \$18,777,667; pears, \$471,924; strawberries, \$1,398,916.

An orderly officer, visiting the mess tents, asked if there were any complaints, and one soldier got up and said, "Yes, sir, taste this."

"Why? It's the best soup I have ever tasted in my army career," replied the officer.

"But," said Tommy, "it's supposed to be tea."

Copyright, 1922, by Rafael Sabatini.  
"CAPTAIN BLOOD," a Viagraph picture with J. Warren Kerrigan  
in the title role, is an adaptation of this thrilling novel.

#### CHAPTER XXIV. Cartagena

Having crossed the Caribbean in the teeth of contrary winds, it was not until the early days of April that the French fleet bore in sight of Cartagena, and M. Rivarol summoned a council aboard his flagship to determine the method of assault.

"It is of importance, messieurs," he told them, "that we take the city by surprise, not only before it can put itself into a state of defense, but before it can remove its treasures inland. I propose to land a force sufficient to achieve this to the north of the city to-night after dark."

He was heard respectfully and approvingly by his officers, scornfully by Captain Blood. Blood was the only one amongst them who knew exactly what lay ahead. Two years ago he had himself considered a raid upon the place, and he had actually made a survey of it. The Baron's proposal was one to be expected from a commander whose knowledge of Cartagena was only such as might be derived from maps.

Geographically and strategically considered, it is a curious place. It stands almost four-square, screened east and north by hills, and it may be said to face south upon the inner of two harbors by which it is normally approached. The entrance to the outer harbor, which is in reality a lagoon some three miles across, lies through a neck known as the Boca Chica—or Little Mouth—and defended by a fort. A long strip of densely wooded land to westward acts here as a natural breakwater, and as the inner harbor is approached, another strip of land thrusts across at right angles from the first, towards the mainland on the east. Just short of this it ceases, leaving a deep but very narrow channel, a veritable gateway, into the secure and sheltered inner harbor. Another fort defends this second passage. East and north of Cartagena lies the mainland, which may be left out of account. But to the west and northwest this city, so well guarded on every other side, lies directly open to the sea. It stands back beyond a half-mile of beach, and besides this and the stout walls which fortify it, would appear to have no other defenses.

It remained for Captain Blood to explain the difficulties when M. de Rivarol informed him that the honor of opening the assault in the manner which he described was to be accorded to the buccaneers.

Captain Blood smiled sardonically at the honor reserved for his men. It was precisely what he would have expected. For the buccaneers the danger; for M. de Rivarol the honor, glory and profit of the enterprise.

"It is an honor which I must decline," said he quite coldly. "Wolverstone granted approval and Hagthorpe and Yberville nodded. 'I will not lead my men into fruitless danger.'"

"Look you, M. le Capitaine, since you are afraid to undertake this thing, I will myself undertake it," M. de Rivarol declared. "If I do so, I shall have proved you wrong, and I shall have a word to say to you to-morrow."

## NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable Compound

Sarnia, Ontario.—"After my girls were born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pains. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I am sure it will do you good and will save those doctor's bills." So I was advised by my husband to try it after I told him about it. I am very thankful to say that I was soon able to take a few boarders for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman these last few months and I certainly would not be without a bottle of your medicine in the house. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me."—Mrs. ROBERT G. MACGREGOR, R. R. No. 2, Sarnia, Ontario.

A recent canvass of women users of the Vegetable Compound report 98 out of 100 received beneficial results. This is a remarkable proof of its merit. C

W. N. U. 1582

total of forty millions. They insist that the treasure itself be produced and weighed in their presence. I warn you that unless you yield to a demand that I consider just and therefore uphold, you may look for trouble, and it would not surprise me if you never leave Cartagena at all, nor convey a single gold piece home to France."

"Am I to understand that you are threatening me?"

"You do not know the ways of buccaneers. If you persist, Cartagena will be drenched in blood, and whatever the outcome the King of France will not have been well served."

The end of it all was that M. de Rivarol gave a promise at once to make the necessary preparations, and if Captain Blood and his officers would wait upon him on board the Victrolite to-morrow morning, the treasure should be produced, weighed in their presence and their fifth share surrendered there and then into their own keeping.

Among the buccaneers that night there was hilarity over the sudden abatement of M. de Rivarol's monstrous pride. But when the next dawn broke over Cartagena, they had the explanation of it. The only ships to be seen in the harbour were the Arabella and the Elizabeth riding at anchor and the Atropos and the Lachesis careened on the beach for repair of the damage sustained in the bombardment. The French ships were gone.

Blood was reduced to despair. If he followed now, Heaven knew what would happen to the town. Unable to reach a decision, his own men and Hagthorpe's took the matter off his hands, eager to give chase to Rivarol. (To be continued)

### A Strange Superstition

Many People Think That \$2 Bills Are Unlucky

Does anybody know the origin of the widespread dislike for \$2 bills as unlucky? This superstitious dread just had strange illustration in New York in the case of certain absconding "bankers," who, though they took with them most of the cash that had been entrusted to them by too confiding depositors, left behind all of the bills that happened to be of the supposedly ominous denomination.

It is suggested that the dislike for \$2 bills arose from the chance of handing them out by mistake for \$1 bills, but why that peril is any greater than in the case of \$5 or \$10 bills is not obvious, unless it be that the larger notes are not so often carried.

That the \$2 bills are disliked and feared by many folk is a fact, however, and some of them seem to have no other superstitions of the same absurd kind.—Regina Post.

### Lost Art Of Walking

People Miss Much By Riding All the Time

Dr. Charles W. Elliot, whose observations on men and manners always are interesting, takes occasion to say a few words on "the lost art of walking" in America. It is a matter of regret to him that "half-soling is applied now more to trousers than to shoes."

Whether it is an errand to the grocery or a desire to be in the country, the automobile is pressed into service. Few persons now set out afoot of a holiday to explore the beauties of bosky dells and river-banks or follow a westerling road over the hills and far away.

No, this generation rides—rides madly and blindly. It knows nothing of repose. Calm contemplation bores it to distraction. It misses much by not walking—it misses the things of the spirit.—Buffalo News.

### Pleasure In Recreation

People In Peru Town Interested In New Pastimes

The inhabitants of a small factory town in Peru took to Y.M.C.A. recreation-activities with such enthusiasm that many of them refused to interrupt their play to go home for food. Their leisure pastimes used to consist mainly of drinking and gambling, but now under the direction of a leader from the Lima Association who visits them once a week, they are discovering new pleasures in cage-ball and other games.

In 1878 anthracite coal retailed for \$3.15 a ton.

### Brazilians Offer Odd Prizes

Premiums In Beauty Contest Include Repeating Rifle and Razor Blades. The business men of Rio de Janeiro apparently believe that pretty girls in Brazil are a bit different. One of the local newspapers is running a beauty contest, with some unusual prizes being offered by local commercial firms.

There are, of course, the usual premiums of talcum powder, toilet sets, and perfume, but some of the others are difficult to harmonize with the prevalent belief that the Brazilian girl does no work, and never goes out unless accompanied by a member of the family.

Included in the list of prizes is a repeating rifle, a bicycle, a gas stove, an ice chest, a typewriter, 50 safety razor blades, a lottery ticket, and 25 collections of love stories.

The photographs already published have not included any contestants who seem to be in need of such a large supply of razor blades, and the motive behind the donation is unexplainable, except on the theory that the girls with bobbed hair are in the habit of shaving their necks.

### Ants That Are Dangerous

Argentine Insects Are Carriers of Disease and Eat Human Flesh

The Argentine ant, which is dangerous both as a carrier of disease and a consumer of human food and even of human flesh, has arrived in Europe in large numbers.

They have been known frequently to attack babies (says Discovery), and may be said even to contest the supremacy of man in his own domain. Although this pest has been observed in the regions of Eastbourne and Dublin, in Germany, and the South of France, so far its activities have been kept in check by the climate.

The ants, it is said, attack small chickens, bees and small birds, which they quite easily consume, and they have been known to bite children to death and eat their flesh. They swarm over homes and farms. Their chief enemies are said to be spiders and water, but they have been known to cross water by forming themselves into balls.—London Westminster Gazette.

### Request Not Unreasonable

Inhabitants on Lonellest Island Ask For Mail Once a Year

Natives of Tristan da Cunha in the South Atlantic, known as the lonellest island in the British Empire, petitioned the government recently to arrange an annual mail boat for them, declaring that if this were brought about they would be perfectly contented; otherwise they threatened to emigrate.

News of the settlement was brought to England by the Rev. H. M. Rogers, who for three years has been a missionary and schoolmaster to the islands. Mr. Rogers made up his mind more than a year ago to return to England, but he was compelled to wait 12 months for a ship. He was accompanied by his wife and baby who was born on Tristan da Cunha two years ago. During the family's stay on the island there was but one mail ship.

### Helpful To Foreigners

Portions of the Bible printed in two languages in parallel columns or pages are being furnished to foreigners by the New York Bible Society. One column is in English and the other in the foreigner's native language. These portions are issued at five cents a copy.

Aeroplane and airships do not sent out an "S.O.S." when in distress, but instead now use the word "Mayday" to clear the air of all interfering wireless traffic.

The load-line mark on ships was originated by Pillsoll, an Englishman, to prevent vessels from going to sea overloaded.

## RED PIMPLES ITCHED BADLY

Neck and Chest Broken Out. Cuticura Healed.

"My daughter's neck and chest were very badly broken out with red pimples that feasted and itched badly. She scratched the affected parts and caused the trouble to spread. At night she could not sleep and the breaking out caused discomfort."

"I tried everything I could think of but nothing helped her. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more, and after using one cake of Cuticura Soap and one box of Cuticura Ointment she was healed." (Signed) Mrs. R. B. Cross, 81 Seneca Parkway, Rochester, N. Y.

Use Cuticura to clear your skin. Sample sent free by mail. Address Canadian Depot: "The Canadian Soap Co., 100-102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

### Testing Chronometers For Navy

Marine Watch Is Subjected To Intense Heat and Cold

Baking a watch seems a silly thing to do. Yet at Greenwich Observatory it is done every day. The watches are marine chronometers, writes J. A. Lloyd, F.R.A.S.

Greenwich Observatory, being under the control of the admiralty, it is part of the routine work of that establishment to test chronometers for the use of the navy. This work has been continuously done there for the last hundred years.

At Greenwich there are special ovens in which the chronometers are placed and raised to any required temperature. Their rates are then compared under these conditions with a standard clock. The temperature of the oven can be maintained constant by means of thermostats, the chronometers being kept under observation by skilled men during the time of baking.

But ships often sail to high latitudes where they meet with intense cold, so the chronometers must also be placed in refrigerating chambers and further tested under these conditions.

The progress of wireless is fast making this work unnecessary. Greenwich time can now be picked up anywhere at sea and the error of the chronometer found on the spot.

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

### Had Cause For Complaint

Spring Cleaning Had Disastrous Results For One Man

Spring cleaning had reached that awesome state when strong men have been known to rush from the house breathing incoherent threats of emigration. Down to breakfast with rather less than enough time to catch the morning train, came the mere male demanding his boots. Followed a frenzied search, and then the small servant appeared in the doorway, pale and distraught. "Please, sir, I've just remembered; we put them all in the coal shed to be out of the way, and—there've just b-been and emptied h-h-half a ton of c-c-coal on top of them."

One of the commonest complaints of infants is worms, and the most effective application for them is Mother Graves' Worm Exterminator.

### Characterizing the Races

London Paper Publishes Idea Current In Moscow

We understand, says a conservative London daily, that the following attempt at racial characterization is now current in Moscow: "One Englishman, correctness; two Englishmen, fastidiousness; three Englishmen, parliament; one German, boredom; two Germans, organization; three Germans, Das Vaterland. One Frenchman, society; two Frenchmen, a duel; three Frenchmen, hegemony. One Russian, a genius; two Russians, intoxication; three Russians, a row."

### Keep Minard's Liniment in the House

Alberta Pools Growing. The membership of the three Alberta farm pools, cattle, dairy and egg and poultry, is now well under way. Arrangements have been made for a series of meetings to be held in the larger centres throughout the province which will be addressed by leading co-operative marketing authorities from British Columbia and the United States.

### Raymond Beet Sugar Factory

It is now estimated that over 7,200 acres of sugar beets have been signed up for the new beet sugar factory at Raymond. Six thousand acres was the figure set by the Sugar Beet Company, when they first entered into negotiations with the farmers.

First Co-ed.—He stole a kiss from me last night.

Second Co-ed.—I have a date with him Saturday night.

"I guess you'll find him a pretty honest fellow."

Minard's Liniment for Corns and Bunions

### Canada At the Norse Centennial

Elaborate Exhibit of Canadian Government Attracted Much Attention

During the first week in June, Canada and the United States joined in honor of the Scandinavian settlers on the American continent by celebration of the centennial of the arrival of the first Norwegian settlers. The Centennial Exposition was designed to pay acknowledgment to the great contribution which those early Norse settlers, their successors and fellow countrymen have made to the advancement of every phase of life in Canada and in the United States.

Canada has a very natural interest in this celebration on account of the large number of Scandinavians who live in Canada and the prominent part they have taken in the development of the country. It was appropriate that, responding to the invitation to send an official representative of Canada, the Canadian Government selected Hon. Thomas H. Johnson, K.C., of Winnipeg, formerly attorney-general of Manitoba. Mr. Johnson is himself a native Scandinavian, having been born in Iceland, who came to Canada with his parents when nine years old. In addressing an immense audience, Mr. Johnson referred to the happy relations which have existed between the United States and Canada for the past generation, and alluded to the influence these countries have exerted in the direction of world peace.

He paid a tribute to the value of the Scandinavian people as settlers and nation builders.

One of the chief features of interest at the centennial was the elaborate exhibit put up by the Canadian Government. This exhibit, besides showing the principal resources and products of Canada, represented by means of a huge panel done in Canadian grains and grasses, incidents in connection with the history of the Norse settlers in North America. One of the representations was that of Liel Ericson, the indomitable Norseman, about to land from his Viking ship on the shores of what is now known as Cape Breton, Nova Scotia, in the year 1001 A.D., 491 years before the discovery of America by Christopher Columbus. The exhibit was the largest and finest which the Canadian Government has undertaken in the United States outside of the big international expositions, and was the occasion of much enthusiasm and favorable comment.

Many other prominent Canadians, including Premier John Bracken, of Manitoba, took part in the ceremonies. The effect of Canada's co-operation will undoubtedly be to direct still greater attention to the opportunities which the Dominion affords for settlers, not only from the Scandinavian countries and the United States, but from other lands as well.

### Paying Twice For Nothing

Heligoland Was Not 'a Profitable Investment For Germany

Heligoland has been stripped of its armament. A former British Government was long and harshly criticized for trading that rock pile for a strip of resourceful country in tropical Africa; the claim being that Germany was converting the islet into a fortification dangerously close to the English shores. When war came the fortress was about as actually useful to Germany as a shore battery at the mouth of the Elbe. It made an attack on the German coast difficult, but did not materially help to make an attack on Britain easier. All that Fritz seems to have got for the privilege of piling \$80,000,000 worth of armament on the rock was the privilege of paying to take it off again.—Edmonton Bulletin.

### The Imperial Blighter

It was not unusual for the late Lord Curzon to answer telephone calls himself. One afternoon a young official rang up Curzon's office and thinking he was addressing a secretary he knew he said, "Is the Imperial Blighter there?" Calmly the reply came from Curzon, "The Imperial Blighter is speaking."

### For Burns and Scalds.—Dr. Thomas' Electric Oil

Electric Oil will take the fire out of a burn or scald. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

### Has Lasted For 75 Years

Seventy-five years ago, H. S. Rogers spelled his name on a grassy hillside by sprinkling wood ashes. His name is still there, and it is said only twice since then have ashes been placed over the letters.

## Take REAL Mustard to Your Summer Home

Be sure to include one or two tins of KEEN'S MUSTARD in the supplies you take to your Summer Cottage or Camp.

Only real Mustard—freshly mixed—can give you that savory zest and tang in your food that you appreciate so much. And only real mustard—freshly mixed with cold water—furnishes real aid to digestion.

Make a note now to "remember Keen's Mustard" when you leave.

Biggest Auto Dump. Thousands of junked cars from New York City are placed on the city dump at Corona every year. A large gang of junk men make a living by stripping them of everything of any value.

## NEARING A BREAKDOWN

A Condition That Calls For a Reliable Tonic

Many women give so much of their time to the cares of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. After the heart palpitates violently at slight exertion, the stomach fails to digest food and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows weak and they are always depressed. This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills which enrich and build up the blood, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. Alex. McInnes, Bowman River, Man., who says:—"About a year ago I had a serious illness which left me very anemic. I was not able to get around to do my work; in fact I could scarcely walk. I was troubled with palpitation of the heart with the least exertion. One day a friend advised me to try Dr. Williams' Pink Pills as they had done her much good. I followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The dizziness and palpitation have left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and rundown."

You can get these pills from any dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Probably a Mistake

Diner.—This steak is excellent. Waiter.—That so? You must have got the one I intended for the man who gave me the fifty-cent tip.

If you think that you resemble a great man say nothing about it. The resemblance may cease the moment you open your mouth.

WHERE efficient Sally Ann works, all forms of grime and grease speedily vanish. Pots and pans, aluminum ware, glass and porcelain shine like new.

CALGARY, CANADA

## One Good Cow is worth Two Poor Ones

RELIABLE statistics show that the average cow produces only 3,000 lbs. of milk and 100 lbs. of butter in a year.

By the careful selection of better-grade animals for your herd and better feeding, the yearly production of milk and butter can be doubled easily, resulting in increased profit to the dairy farmer.

Weed out the culls, breed by a good sire and save your best heifers.

Our Farmer's Account Book provides for a record of your milk production. Ask the Manager for a copy.

### NOTES OF GLEICHEN TOWN COUNCIL

Notes of the meeting of the Gleichen Town Council held in the town hall on Friday June 12th 1925. In following councillors were present: J. Wright, T. Bates, G. Moss, W. Ferguson. Councillors Brown and Moss: That minutes of the meeting of May be adopted as read. Carried. Councillor Ferguson stated that he was not prepared to make a report on the fence up at Dr. Bowles water.

The secretary read two communications from the C. P. R. in regard to opening up of a road way from the station to Fifth Avenue and reported that this had now been done.

Councillors Moss and Brown: That communications be filed and that a secretary write a letter to Mr. Hinchey, divisional superintendent thanking him for having the roadway opened. Carried.

As fire ladders in Block 7, Councillors Brown and Ferguson: That block 7 be placed in third class limits and that by order No. 10 be amended and confirmed. Carried.

The roadway in front of the Brown Block was reported as having been repaired.

The question of testing milk cows for tuberculosis was again discussed. Councillors Brown and Moss: That this question be referred to the local Board of Health and their attention drawn to the provisions of Up-Law No. 22. Carried.

As application was made from Messrs. Burr and Hinchey asking permission to install a gasoline filling tank.

Councillors Bates and Moss: That the permit be granted. Carried. The report of the Provincial Sanitary Inspector was read.

Councillors Ferguson and Bates: That the report be received and filed. Carried.

The draft of Act righting assessment appeals was submitted. Councillors Ferguson and Brown: That the draft of Act be filed. Carried.

Councillors Ferguson and Brown: That the following be passed: telephone \$1.50 and \$1.50; Fire Chief \$2; J. H. Woods \$33.20; L. Michael \$10.20; Newlands \$24.75; Flanagan Block \$2.40; W. James, Jr. \$14.15; N. T. Purcell \$70; Brown Transfer \$24.50; Jones Young \$14.00; W. Butler \$7.00; United Typewriter Co. \$62.50; Dr. McDonald \$22.75 and P. Macdonald \$10.00.

Councillor Wright brought to the attention of the council the objections raised by the Bank of Commerce in regard to the estimated expenditures of the year. It was shown that the town would be making \$12,000 to \$15,000 in profit. The estimates were reconsidered and the following reductions made: Insurance from \$10,000 to \$750; relief from \$600 to \$250; town tax discounts from \$1,000 to \$700; public works \$1,000 to \$325.00 and power house from \$2,000 to \$625.00.

Messrs. F. K. McKay and L. Webster appeared in connection with repaying part of the taxes to the Queen's Hotel. Councillor Wright explained his reasons for asking that the by-law be repealed and stated that he was prepared to carry out the intention of the council as far as he year 1925 was concerned.

By-law No. 158 repealing By-law No. 147 was then read a first, second and third time and passed.

By-law No. 159 granting a refund of 1025 taxes to the amount of \$1862.50 to the Queen's Hotel was read a first, second and third time and was passed.

The typewriter is mighty faster than he pen.

A statesman is a politician who has been dead some years.
